01 About Wayne Scott-Fox

Wayne Scott-Fox is a sole trader based in the United Kingdom, trading under his own name. The business is not a limited company, is not incorporated, and has no legal identity separate from Wayne as an individual.

Through waynescottfox.com, Wayne runs the Wayne Scott-Fox AI Innovations Lab: a personal portfolio presenting the AI products, systems and projects he has created or developed.

■ HOW TO CONTACT WAYNE

Wayne does not publish a postal address or telephone number on the website. Questions about these terms or the website can be sent using the **contact form on waynescottfox.com**.

02 About These Website Terms

These terms apply to anyone who visits or uses waynescottfox.com. By using the website, including simply browsing it, you accept these terms. If you do not accept them, please do not use the website.

These terms govern the website only. They do not govern any commercial engagement with Wayne, which would be agreed separately and in writing.

Where the Privacy Notice or the Cookie Policy addresses a subject more specifically, that document governs the point it covers.

03 Accessing waynescottfox.com

The website is available for ordinary browsing without registering or logging in. It has no user accounts, online shop, subscriptions or member areas.

These terms apply wherever you access the website from. Section 14 sets out the law that governs them.

Wayne may restrict, suspend or withdraw access to the website, or any part of it, where use of the site breaches these terms, where there is a genuine security concern, or for the reasons described in Section 11.

04 Website Content

The website includes information about Wayne, descriptions of AI products and systems, portfolio visuals, diagrams, status indicators, illustrative interface data, a contact form and links to external websites.

Content is published in good faith and with reasonable care. Wayne's systems continue to evolve, so product details, capabilities and statuses can change over time, and the website may not reflect every change at every moment.

Descriptions, metrics and status indicators on the website are not contractual terms, warranties or guarantees. If you want to rely on information from the website for a decision, particularly a commercial one, please confirm it with Wayne first.

■ CONTACT FORM ENQUIRIES

Sending an enquiry through the contact form does not create a contract or a client relationship, does not oblige Wayne to undertake any work, and does not guarantee a response. If an enquiry develops into work, the terms of that engagement will be agreed separately. How your enquiry details are handled is explained in the Privacy Notice.

05 AI Products, Systems and Portfolio Content

The website presents AI products, systems and projects created or developed by Wayne, covering areas such as AI strategy, business operations, cybersecurity, finance, recruitment and workforce technology, investment and asset systems, automation and AI-enabled internal systems.

These are not all the same kind of thing. Some are live, some are private, and some are still in development. Some were built for operational use, including Wayne's own, and others were developed around specific real-world problems. Featuring a product or system on the website does not mean the product is available to buy, license or access, or offered as an off-the-shelf product.

Some products shown may have been developed with or for other organisations. Their names and associated rights remain with their respective owners.

■ PRODUCT VISUALS AND INTERFACE DATA

The website uses stylised dashboards, charts, meters, monitoring screens and product representations to show what each system does and how it works. Screens, diagrams, interfaces, scores and status displays may be illustrative, simplified or representative, and may show an earlier version of a system. Unless the website states otherwise, they are not literal real-time operational data and should not be treated as guaranteed measurements of performance.

06 Financial and Market Content

Some systems shown on the website relate to financial markets, including RS5, an autonomous AI trading and market-research platform.

Any market, trading or financial content on the website is informational and illustrative. The RS5 visual is a stylised monitoring display and does not show live or historical trading performance.

Nothing on the website is investment advice, financial advice, a trading recommendation or personalised financial guidance, and you should not rely on it to make financial or investment decisions. Wayne does not provide regulated investment advice through the website and is not authorised by the Financial Conduct Authority to do so. If you are considering an investment, please seek independent advice from an appropriately authorised adviser.

07 Intellectual Property and Permitted Use

Wayne owns, or lawfully uses under licence, the rights in the website's copy, branding, design, layout, graphics, code, product visuals, screenshots and original written content.

Wayne does not claim ownership of third-party trademarks, logos, software, licensed assets or other people's intellectual property shown on or used by the website. That material remains the property of its respective owners.

■ WHAT YOU MAY DO

You may browse the website, use ordinary browser functions and share links to its public pages.

■ WHAT YOU MAY NOT DO

Without Wayne's permission or another lawful basis, you may not:

- copy or reproduce a substantial part of the website;
- republish website content as your own;
- scrape or systematically extract content for commercial reuse;
- commercially exploit the website's design or content;
- use the website or its content in a way that falsely implies affiliation with or endorsement by Wayne; or
- remove any copyright or proprietary notice.

Nothing in this section restricts a use permitted by the Copyright, Designs and Patents Act 1988, such as fair dealing for criticism, review or quotation, or any other statutory exception that applies.

08 Acceptable Use and Security

You must not use the website to:

- attempt unauthorised access to the website or any system connected to it;
- attack, damage or disrupt the website, or interfere with its security;
- introduce malware or other harmful code;
- carry out automated activity that places an unreasonable burden on the website or harms its operation;
- impersonate Wayne Scott-Fox or falsely claim an affiliation with him;
- commit fraud or deception, or abuse the contact form; or
- pursue any unlawful purpose.

Conduct of this kind may also be unlawful independently of these terms, including under the Computer Misuse Act 1990.

This section does not restrict ordinary, legitimate use of the website, including normal browsing and search-engine indexing carried out in the usual way.

09 External Links

The website links to external websites, such as [user Reggie.co.uk](https://www.user Reggie.co.uk). Wayne does not control external websites, and each has its own terms, privacy notice and cookie policy, which apply when you visit it. A link is not an endorsement of the linked site or its content unless the website explicitly says so.

If you find a link that no longer works or points to content that appears harmful or misleading, please report it using the contact form so it can be reviewed.

10 Privacy and Cookies

How Wayne handles personal data, including details submitted through the contact form, is explained in the Privacy Notice. How the website uses cookies and similar technologies is explained in the Cookie Policy. Both are published on waynescottfox.com.

In summary, the website uses no analytics, advertising or tracking technologies and no non-essential cookies. The Privacy Notice and Cookie Policy set out the full position and are not repeated here.

11 Website Availability and Changes

Wayne aims to keep the website available and working well, but uninterrupted availability is not guaranteed. Maintenance, hosting issues or technical faults may occasionally affect access.

Wayne may update, reorganise, add or remove pages, content and functions at any time, and the products and systems shown will evolve as they are developed. Advance notice of every change is not required.

12 Liability

Nothing in these terms excludes or limits liability for fraud or fraudulent misrepresentation, death or personal injury caused by negligence, or any other liability that cannot lawfully be excluded or limited under the law of England and Wales.

The website is provided free of charge for information. Subject to the paragraph above, and to the extent the law permits, Wayne is not liable for loss arising from:

- reliance on general information published on the website;
- reliance on illustrative product, interface, market or financial content;
- content or practices of any external website linked from waynescottfox.com;
- temporary unavailability of the website; or
- any indirect or consequential loss.

If you are a consumer, nothing in these terms removes or restricts any statutory right that mandatorily applies to you under UK consumer protection law.

13 Changes to These Terms

Wayne may update these terms to reflect changes to the website or the law. The current version is published on waynescottfox.com, and the date of the last update is shown on the cover. A change applies to use of the website from its publication date and does not remove any statutory right you already held.

Please refer to the published version rather than a saved or printed copy.

14 Governing Law and Contact

These terms, and any dispute or claim arising out of or in connection with them or your use of the website, are governed by the law of England and Wales. If you are a consumer with a mandatory right under applicable law to bring proceedings in another jurisdiction, such as Scotland or Northern Ireland, nothing in these terms removes that right.

These terms sit alongside the Privacy Notice and the Cookie Policy published on waynescottfox.com.

Questions about these terms or the website can be sent using the contact form on waynescottfox.com.
